1. WELCOMING LETTERS

**WELCOMING LETTER FROM THE PRESIDENT OF
THE REPUBLIC OF COLOMBIA,
JUAN MANUEL SANTOS CALDERÓN**

WELCOMING LETTER FROM ZULIA MENA, PRESIDENT OF AMUNAFRO

2. BACKGROUND AND RATIONALE

The Third World Summit of Mayors and Presidents of African Descent is preceded by the one held in **Nigeria** (4th World Summit of Mayors International Conference, February 23rd to March 4th, 2011), which was aimed at leadership as a tool for solving development problems and **Senegal** (World Summit of Mayors from Africa and the Diaspora, from the 15th to the 19th of December 2011), which focused on HIV in urban areas, the prevention strategies and the need to end the stigma and discrimination. In this occasion, the dimensions of **Governance and Ethnicity for Economic Development with Social Inclusion** will be addressed.

World summits of African leaders have gathered an average of 500 leaders from Africa, North America, Europe, Central and South America. Discussion topics have been aimed at defining common positions on current issues. The purpose of these summits is that under the principle of "think globally and act locally", cooperation is promoted between municipalities in the development challenges faced by the cities of the world, as a key mechanism for improving the welfare of citizens mainly in urban areas.

The Third World Summit is endorsed by the Government of Colombia and is lead by the National Conference for Black Mayors, NCBM, which brings together 689 mayors in the United States of America, and the Association of Afrocolombian Mayors, Amunafro, which groups 215 mayors. The Summit seeks to "**Deepen political dialogue and international cooperation for the development of the African Diaspora, generating economic, commercial, cultural, social, athletic, academic and spiritual integration.**"

Presidents, mayors, governors, legislators, business men and women, academics and representatives of civil society, among others, will attend the Summit. They will debate, share and propose policies, strategies and actions which will guide Africa and the African Diaspora by means of their implementation towards a more profound insertion in economic development both globally and locally.

Colombia has the third-largest population of African descent in the Diaspora, after Brazil and the U.S. There are over 10 million people, corresponding to 20% of the national total, of which about 4.5 million are self-recognized as such according to the last national census conducted in 2005. Cali, headquarters of the Summit, is the third most important city in the country. It is estimated that over 50% of its population is of African descent.

3. OBJECTIVE

Expanding and deepening political dialogue and international cooperation for the development of the African people and its Diaspora, creating cultural, social, economic, commercial, recreational, academic and spiritual integration.

4. PRODUCTS

A **Declaration and an Action Plan** which include:

1. A **strategy** for the expansion and elaboration of Political dialogue and International Cooperation in favor of Africans and people of African Descent, which, among other aspects contains:
 - a. The design and implementation of a Fund for Access to Higher Education and Educational, Cultural, Spiritual and Athletic Exchange among Africans and people of African Descent of the Diaspora.
 - b. The stimulation for the issuance of executive orders from governments and relevant intergovernmental bodies, tending to favor, from a local perspective, the development of Africans and people of African Descent, including equitable access to the resources of international cooperation, with special reference to education. (Ideally, the Summit itself will present an Executive Order signed by Obama and other leaders in a unified manner and / or for their own countries).
 - c. A strategy to promote the creation of national associations of local leaders, from territorial entities with majority or significant black population.
 - d. A strategy for promoting the exchange of good practices in the field of political empowerment from local power.
 - e. The design and implementation of a Fund for Africans and people of African Descent entrepreneurship support.
2. An **Agreement** of Intent to establish a network of cities for Trade and Cultural Exchange from the local level, among people of African Descent in the Americas, and Africa.
3. **Documents** declaring intent to initiate business between businessmen and women, entrepreneurs and regions deriving from the business meetings scheduled on the agenda of the Summit.

5. THEME

"Ethnicity Governance and Economic Development" is proposed as the central theme of the Summit in order to articulate approaches and contents of the following key themes throughout the Summit; they will be present in the conference proposals, experiences and reflections from the work tables:

4.1. PUBLIC POLICY AND SOCIAL INCLUSION OF AFRICANS AND PEOPLE OF AFRICAN DESCENT.

This key theme of the Summit is intended to emphasize public policies as instruments for social inclusion of Africans and people of African Descent. In that sense, the Summit can address conceptual thinking and practical experiences about inclusive policy management in educational, occupational, economic and cultural scopes among others.

4.2. GOVERNANCE AND POLITICAL PARTICIPATION OF AFRICANS AND PEOPLE OF AFRICAN DESCENT.

This key theme addresses ideas and success stories relating to the opportunities in mobilization, participation and political action of Africans and people of African Descent and their challenges.

4.3. ECONOMIC DEVELOPMENT OF AFRICANS AND PEOPLE OF AFRICAN DESCENT.

This key theme is intended to address the comparative and competitive advantages of the territories with a majority population from Africa or of African descent, in areas such as mining and energy development, trade, tourism and environment, among others.

4.4. ENVIRONMENT AND ECONOMIC DEVELOPMENT OF AFRICANS AND PEOPLE OF AFRICAN DESCENT.

This key theme aims to raise the incidence of the environment in the economic development of African and African descent communities and their global impact, especially in relation to climate change and food security.

4.5. CULTURAL, ARTISTIC AND ATHLETIC DEVELOPMENT OF AFRICANS AND PEOPLE OF AFRICAN DESCENT.

This key theme seeks to emphasize the strategic importance of culture and sport in the process of ethnic and cultural affirmation and social development of African and African descent communities. In addition, the theme aims to build bridges of integration between Africa and the Diaspora.

4.6. INTERNATIONAL TRADE RELATIONS FOR ECONOMIC DEVELOPMENT

This key theme aims to enhance trade relations between cities and territories that benefit populations in Africa and of African Descent.

4.7. EDUCATION AND COMMUNICATION, STRUCTURAL AXES FOR THE ECONOMIC DEVELOPMENT OF AFRICANS AND PEOPLE OF AFRICAN DESCENT.

This key theme approaches, from an ethnic perspective, the role of education and the media in the economic development of the peoples of Africa and its Diaspora.

6. METHODOLOGY

El evento se desarrollará mediante conferencias magistrales, paneles de experiencias y mesas de trabajo:

The event will develop through keynote speeches, experience-sharing panels and work tables:

5.1 KEYNOTE SPEECHES:

Two keynote speeches are proposed which will illustrate a general perspective of the main theme of the event from highly recognized voices such as the Interamerican Development Bank (IDB) and the Economic Commission for Latin America and the Caribbean (ECLAC), which in turn have the opportunity to maximize the results and commitments of the Summit.

5.2 EXPERIENCE-SHARING PANELS:

Panels are proposed for the sharing of experiences regarding the development of Africans and people of African descent. An initial presidential level panel and three simultaneous mayor and governor level panels. The Summit seeks to demonstrate a diversity of experiences from Africa, USA, Latin America and the Caribbean; from large cities to small territorial entities.

To identify the speakers specially invited to the panels, the Summit proposes preliminary research on their experiences, which will determine the emphasis of each one in relation to the 5 key themes and the general objective of the Summit. Nonetheless, the following Agenda of the Summit identifies 18 preliminary speakers.

5.3 WORK TABLES

Deriving from the Keynote Speeches and the experiences presented in the panels, work table sessions will be conducted around the 5 key themes mentioned above, which will consolidate action proposals, conclusions and commitments of the Summit.

For the development of the work tables, the Summit proposes inviting moderators with training and/or experience related to each key theme; preferably ministers or ex-ministers from Africa and of African Descent.

In the Ethnic Economy day, specialized work tables will be formed in order to define strategies and plans of action which will favor the entrepreneurship of Africans and people of African Descent.

5.4 ASSOCIATED EVENTS

Given the variety and importance represented by the participants of the Summit (artists, business women and men, and Presidential level leaders, among others), parallel agendas to the main event of the Summit will be developed in order to generate private spaces between them and participants from other sectors assisting the Summit.

Academic event, "Dialogues between Africa and its Diaspora in the Black Americas" Idcarán-Ces will co-organize the event in association with the University Incolda Colombian Institute of Advanced Studies (ICESI) and will take place in Cali on 13 and 14 September 2013. This event is convened by the National University of Colombia in Bogotá, Universidad Javeriana in Cali, Universidad del Valle, Universidad de Cartagena-International Institute of Caribbean Studies, Pacific University, Technological University of Chocó, St. Bonaventure University, University Santiago de Cali, Autonomous University, University of Pennsylvania, program of African Studies, and the Howard University Research Group on African & African Diaspora Studies.

International Seminar on "Africa and its Diaspora" organized by the Presidential Agency for International Cooperation of Colombia from 12 to 16 September.

7. COMMERCE, CULTURE AND TOURIST ACTIVITIES

We will carry out business meetings, entrepreneurial events, and commercial rapprochement between mayors and businessmen

We will display showrooms and sales of paintings, photography, sculptures, crafts, and a fashion show.

The townships of Cali and Cartagena will have a cultural and tourism agenda including: visits to historical sites, traditional shopping centers, tourist spots in the city.

According to the demand of the audience we will be able to generate scheduled visits to different projects which serve as experiences of good practice in Colombia.
